Dear Friends,

As the Representative for Nevada's First Congressional District, it gives me great pleasure to welcome everyone attending the F.A.S.T. (Finding Autistic Solutions for Tomorrow) 4 Kids Gala 2011.

I commend F.A.S.T. for the work you are doing to help autistic children receive the quality education they deserve. Your efforts are helping schools to offer specialized programs for these special children and will help them achieve their fullest potential, and contribute to their success.

Congratulations to F.A.S.T. founders, Jerry and Shelly Peck. This remarkable couple has taken the challenge by involving other individuals and couples who volunteer their time and efforts to aid in the awareness and education of the growing problem of autism. I commend all of you!

Best wishes for a wonderful event.

Sincerely,

SHELLEY BERKLEY  
Member of Congress
