F.A.S.T. (Finding Autistic Solutions for Tomorrow) is a non-profit organization dedicated to helping Autistic children and children with learning differences get the quality education that they deserve, regardless of their families financial situation. FAST provides funding to educate students with all types of learning difficulties.

 1 in every 91 American children have a form of Autism, and 1 in 58 are boys. With proper schooling, autistic children can grow and develop into active adults. There is very little funding for scholarship programs for autistic children.
